Marine Corps Enterprise

Information Technology (IT) Services

Briefed by

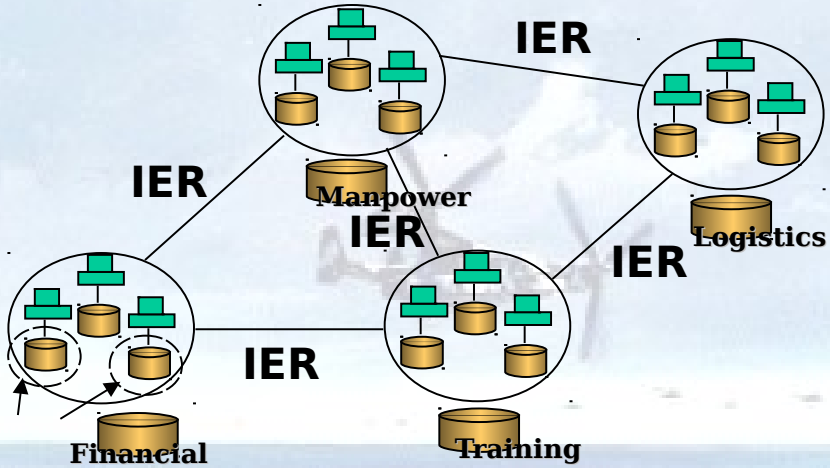
LtCol Keating, HQMC C4 (CIO)

POM-06 Command Element Advocacy Board (CEAB)

7 Aug 03

Initial Draft: 4

BACKGROUND:



- Current IT Environment

- Commandants Directive
  - Build a CMC Portal
  - Access to and use of Authoritative Data

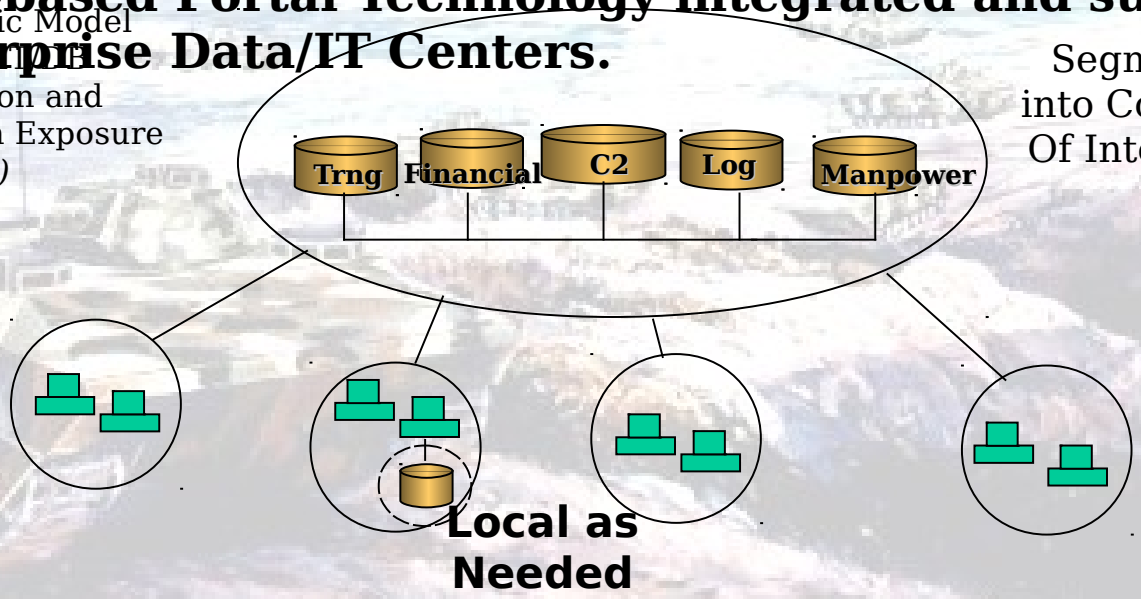
- OSD Transformation Initiatives
  - NET Centricity and Net Centric Operational Warfare
  - Global Information Grid (GIG) and Global Information Grid Enterprise Services (GES)

- Marine Corps Enterprise IT Services
  - Enterprise Portal Technology
  - Enterprise Shared Data Environment
  - Data / IT Centers

REQUIREMENT DESCRIPTION: Marine Corps Enterprise IT Services

- **To improve the effectiveness and efficiency of IT delivery and support services to the warfighting and supporting establishment.**
- **Provide a Common Enterprise IT Services Environment /Capability, consisting of platforms to support shared services, an Enterprise Shared Data Environment (ESDE), Web-based Portal Technology integrated and supported in Enterprise Data/IT Centers.**

Net Centric Model
Leading to IT Consolidation and Information Exposure (*Integrated)*



Segmentation into Communities Of Interest (COI)

CAPABILITY PROVIDED:

- **Better / quicker decision making.**
- **A stable, secure, and consistent environment for/to host applications, web services, and databases that is staffed on a 24/7 basis.**
- **Dramatically reduce the number of application/web-hosting/database servers - maximize utilization and reduce cost.**
- **Reduce the number of support personnel required for application and web-hosting, and maximize scarce, highly specialized skills.**
- **Improve security & system security certification.**
- **Continuity of Operations / Disaster Recovery.**
- **Support deployed forces through reach back services and the implementation of transformational technologies.**
- **Improved System Interoperability, Integration and Information Management.**

URGENCY TO COMPETE IN POM 06:

- **MC Enterprise IT Services: (Portal Technology, ESDE, & Data/IT Center Capability)**
  - **Can't continue current decentralized / fragmented IT environment**
  - **Can't afford current IT environment**
  - **Will Create the Environment & Conditions for Success**
    - **Fulfills need for Common IT Infrastructure**
    - **Need to manage rapid pace of technology**
    - **Facilitates DoD Net Centric Strategy and migration toward mandated use of GIG Enterprise Services**
    - **Mandated Systems Integration and Interoperability requirements**
  - **Satisfy CMC vision**
    - **Need to improve access to enterprise shared data to improve decision making**

WAY AHEAD / OUTSTANDING ISSUES:

- **Universal Needs Statement**
- **Draft Initial Capabilities Document**
- **A Business Case Analysis is being conducted at this time**
- **POAM to develop CMC Portal Pilot and ESDE**
